PASSING PRIVATE BILLS. Disposing of 118 in an Mour-Senator Blair topoeing of 116 in an Rour-Senator Blair Auxieum to Knew When the Prohibition Bill Will Boach the Senate-The Ment Inspection Bill Proceed in the Senate and the King Interior 2011 in May House.

WARRENGTON, April 5,-Among the petitions presented in the Senate to-day was one from the President of the Methodist Episcopal Church Mission, protesting against the passage of the bill providing for the deportation or imprisonment of Chinese found in this country without certificates.

While the bill extending to the whole of the District of Columbia the laws in force in Washington against selling liquors on Sundays or to minors was being considered, Mr. Blair expressed his intention of offering an amendment absolutely prohibiting the sale of liquor in the District of Columbia; and he saked the Chairman of the District Committee (Mr. Ingalis) whether an early report might be looked for from that committee on the Probibition bill referred to it.

Mr. Ingalis replied that under the pending bill the sale of intoxicating liquors in the District was prohibited for one-seventh part of the

Mr. Blair - And I propose to have it prohibit-

ed for the other sixth-seventh parts. Mr. Ingalis-The Senator knows that that subject cannot be discussed under the fiveminute rule. The subject of general prohibition and of high license is under consideration by the committee. It has not yet been acted upon. It is the intention of the committee to formulate some measure on the subject at the earliest possible day. That is all the as-

surance I can give. Mr. Blair-That bill has been before the District Committee for several Congresses. 1 wish to Inquire how many future Congresses will come and go before the committee will formulate it- mind on the subject.

Mr. Ingalls-Probably about the time when

the Educational bill is passed. Mr. Blair-There is about as much necessity

for the one as for the other.

Mr. Spooner (a member of the District Committee-I hope the Senator from New Hampshire will not delay the passage of this bill, Mr. Blair-Is the Senator from Wisconsin able to give any information as to the time

when the prohibition bill will reach the Senate: Mr. Spooner - I am not. The senator is wellaware that on the question of prohibition there is a very great difference of opinion. Whatover may be said of prohibition in the rural districts, it could hardly be successful in a city

over may be said of prohibition in the rural districts, it could hardly be successful in a city like Washington.

Mr. Blair - This particular bill would seem to be thought very good in the way of snoon victories, and I do not feel like being an obstacle to lis massage.

After further discussion the bill was passed. The following Senate bills, among others, were taken from the calendar and passed:

Mr. Hale gave notice that he would propose the following amendment to the section of the Army Appropriation bill to establish the canteen system in the army:

Providing that no alcoholic liquora including beer and wine, shall be sold or supplied to the entisted men in any canteen, or in any room or building at any garrison or military post.

This amendment was rejected by the House. After a short executive seasion private bills on the calendar were taken up, and (with Mr. Frye in the chair and Mr. Johnson, Chief Clerk, doing the reading), 113 bills were passed in just one hour. Among them was one giving a pension of \$50 a month to Mrs. Carolina B. Stevens, daughter of Senator Baker of Oregon, who was killed at the battle of Balls Bluff, and one giving a pension of \$100 a month to the widow of Gen. John F. Hartrantt.

The Senate then schourned until Monday.

On motion of Mr. Bioutelle of Maine the House went into Committee of the Whole (Mr. Biutterworth of Ohio in the Chair) on the Benate joint resolution for the removal of the naval magazine from Ellis Island, New York harbor. The bill authorizes the Secretary of the Navy to take immediate measures for the removal of the naval magazine from Ellis Island. It appropriates \$75,000 to purchase or to obtain by condemnation a site for and for the erection of a naval magazine, with suitable buildings therefor, and the Secretary of the Navy is authorized to select a site at a site distance from populous cities and from the shipping of the harbor of New York. It also appropriates \$75,000 to enable the Secretary of the Treasury to improve Ellis Island for immigration purposes.

Mr. Boutelle explained that the resolution had passed the Senate, had received the unanimous report from the Committee on Naval Affairs, and had been endorsed by time joint Committee on Immigration. Prompt action should be taken in order to remove dangerous explosives from the vicinity of New York city, and to secure an immigrant station, as the lease of Castle Garden would expire in a few days.

Mr. Covert said that there was no objection anywhere to the first part of the resolution providing for the removal of the explosives was absolutely necessary. But he did object to the proposition that Ellis Island should become the parmanent, or even temporary, site of the Immigration Bureau. Of all the islands in New York harbor, Ellis Island was the most unsuitable for this purpose. It was low, a long island, located a mile and a half from New York containing only four of five acres, and destitute of inhabitants. He did not think, however, that any of the seasons of the screen and the located upon the mainland.

The Immigration law should be carried out in the midst of civilization rather than in the midst of desolation and privacy. Mr. Oates of Alabama tayored the removal of

Mr. Oates of Alabama favored the removal of the magazine but objected to the selective of falls Island for the immigrant station. The island was a small one, and the deepest wave which could be obtained at it was seen or eight feet. In order to make the Island into enough for the purpose of an immigrant station, on a great expenditure of money would be necessary. There was not room on the Island in one enough for the purpose of an immigrant station agreat expenditure of money would be necessary. There was not room on the Island or erect a hospital or boarding houses, and the Island would have to be enlarged by seviral acres. He believed that the station should up located on the mainland, but if an island were selected he thought that the choice should fall on Governor's Island.

Mr. Brewer of Michigan favored the selection of Ellis Island, and stated his objection to Bedlow and Governor's Islands. He did not, think that a suitable site on the main land could be secured for least than \$2,000,000.

Mr. Oates moved to strike out the clause providing for the location of the immigrant station on Ellis Island—leat. 17 to 30.

Mr. Covert offered an amendment irrording that the immigrant station shall be located in New York, Brooklyn, Long Island City, or Staten Island.

Mr. Dates moved to strike out the clause providing for the location of the immigrant station on Ellis Island—leat. 17 to 30.

Mr. Dates moved to strike out the clause providing for the location of the immigrant station on Ellis Island—leat. 17 to 30.

Mr. Cummings of New York said that he would be gaid to vote for the amendment of the frequency of the discussion of the Work of the Amendment of the Committee and the selection of the Committee of the Amendment of Ellis Island. Here was something specific and in the excrementances he did not see how he could yote in any other way than to sustain the action of t

tion of the committee.

The amendment was defeated, as was also an amendment offered by Mr. McAdoo of New Jersey, providing that the powder magazine shall be located at least lifteen miles from New York city.

shall be located at least lifteen miles from New York city.

The committee then rose, and the joint resolution was passed with an unimportant amendment, which will necessitate its return to the senate for further action.

The hour of 3 octook having arrived, public business was suspended, and the House proceeded to pay tribute to the memory of Newton W. Nuttin of New York. After eulogistic addresses by Messis, Payne, Blanchard, Eaker, Grosvener, Peters, Sherman, and Henderson of Illinois, the House adjourned.

WASHINGTON, April 5 .- Among the espicuous men in the House of Representatives to-day are Gens. Banks of Massachusetts, Hooker of Mississippi, Hender-son of Iowa, and Wheeler of Alabama. Visitors in the galleries invariably ask their guide to tell them who that old gentleman is with show-white hair, moving around so slowly and with so much deliberation. "That is Gen. used to work in a spinning mill in Massachusetts." Then the guide, if he is well informed, will give the visitor a brief history of the General's public career, telling how be was once an editor of a newspaper, a member of the State Legislature for several years, Governor three years, a Major-General of volunteers. in Congress and during the Thirty-fourth Conman, and is quite feeble at times. He is especially dignified and rolle at all times, and he is popular with his associates on both sides of the most striking men in the House. He is a South Carolinan by birth, and lost his left arm at the battle of vicksburg while Colonel in the Confederate army. By request Senator Ingalls to-day introduced a bill providing for a system of banking by the United States, proposed by the Wageworkers Altiance. It provides for the establishment of an executive department of banking, with a secretary at its head, whose salary shall be \$5,000, and four assistant secretaries, with salaries of \$5,000 each. At the department the banking for the people shall be done free of cost, except such merely nominal fees as are necessary to pay expenses. Branches shall be established at Post Offices throughout the country, and maintained so long as they are necessary. Loans shall be made on security, the interest payable on Dec. 31 every year. Failure to pay interest shall terminate the loan, and, after the sale of the security, the excess over the loan, if any, shall be paid to the borrower. The money necessary to transact the business of the department shall be furnished by the Treasurer of the United States, and it shall be full legal tender for all debts and dues within the United States. The money shall be printed by hand on silk-threaded paper, at the Bureau of Engraving and Printing, in the following denominations: One, two, three, and five milis; one, two, three, and five dilars; one, two, three, and live cents: one, two, three, and live contex of the Republican members of ment the banking for the people shall be

WILKESBARRE, Pa., April 5.-It was thought that the water had decreased in the fatal South Wilkesbarre shaft, where the eight men lost their lives three weeks ago, sufficient to make an examination of all the inside workings. They had not proceeded far when a most violent explosion of gas occurred. Fortunately none of the men were injured. It is believed that the explosion was due to a fire still burning in one of the high elevations of the shaft, where water could not reach it owing to compressed air. The work of cleaning up will have to be abandoned until all fear of fire in the pit has passed away. The portion of the shaft on fire now is to be flooded again, Other explosions are likely to take place. The additional damage done is said to be quite extensive.

O'NEIL'S TALE OF HOE.

The Suit Against His Mother-in-Law for Allenating His Wite's Affections.

KINGSTON, April 5. - Additional interest was excited to-day in the O'Neil-Hester case by the publication of an interview with the plaintiff, in which he relates a sad tale of woe. cause of the domestic trouble in the O'Neil household, brought about by Mrs. Jane Hester. the mother-in-law, and the commencement of an action against her by Mr. O'Neil for \$30,000 damages for alienating his wife's affections. fashionable circles here have anxiously awaited the approach of the trial. It is expocted that the case will be reached at the coming Circuit Court. Public sympathy is with the injured husband. He has hosts of friends here, where he has been a respected merchant and led an honorable life. In the interview Mr. O'Feill says:

"I was married in 1860. For a wedding present Mrs. Hester, my mother-in-law, sent me a little old bedstead. She was poor at that time. I was comparatively well to do. At that time she was living in Brooklyn with Will Hester of the Eagle, one of her sons. She caused trouble in the household. Her daughter-in-law said to her. You can't run my house,' whereupon the old lady became angry and came to live with me, as did also her husband, who recently died in this city. Mrs. Hester agreed to give me \$5 a week for board for herself and husband. They remained over four months, when I was offered \$15 for their maintenance. She owes me for board at the present time nearly \$1,000. In the mean time Mrs. Hester received a large sum of money willed to her by her brother, Isanc Van Anden, who died in Brooklyn. After this she became independent. She gave one of her sons large amounts of money, which he squandered, but refused to pay her board. I found fault. The old woman found that I felt offended, and the trouble began. Quarrels between my wife and myself were frequent after that. There was no more peace in the house. My mother-in-law accused me of going with other women, Invariably my wife took her part. Finally I failed in business, and what was left I assigned to my wife. Mrs. Hester then coaxed her to leave me, and threatened to dissinberit her if she sid not. One night while slek and suffering intense pain in bed my wife struck me in the ribs, and then left the ted saying that she had been trying to get rid of me for years. I then got a hill of separation. The trouble seemed to be that she wanted to be a leader in society after she was the recipient of \$4,000 a very income. She has set up. herself and husband. THE GUNS AND THE FORTS. Lurger Appropriation Made for Then

WASHINGTON, April 5.-The House has passed both the Army and the Fortifications Appropriation bills this week after the annual and apparently inevitable controversy over committee jurisdiction. The constant renewal of this light is due to the fact that there is an argument for each side. The Military Committee has logic and common sense with it, while the Committee on Appropriations has the sanction of precedent in a distribution of the public business which is admitted to be conventional and arbitrary. The issue this year was made on three items only:
For steel field guine of also inches calibre
For metallic carriages for held guin butterles
For steel shell or straphed for field guin.

These three items, aggregating \$180,135, were found both in the Army and the Fortillcations bills. The former measure had the right of way, and its advocates may have hoped that since these items were identical in the two bills they would be passed without obection. But the Appropriations Committee promptly made the point of order that the Military Committee had stolen some of its thunder. These items, it said had been conreyed into the bill from the Book of Estimates which was sent to the House for the use of the Committee on Appropriations, and had never mittee. The latter committee responded that the fleid guns referred to were for the light batteries, which serve with infantry and cavalry in the field and not in the fortifications, It was able also to cite a letter from Gen. Schofield specifically declaring that everything relating to these field guns properly came within general and not within that of fortilleations Committee, which has charge of the latter gress the same point was raised as to field guns and decided in its favor; and accordingly precedent once more carried the day, and these items were stricken from the Army bill.

With this exception both bills were passed by the House very nearly as reported from the

The Seandale Connected With His Name Porce Situ to Leave Rie Sigh Position. WINNIPEG, April 5 .- It is announced to night that both Premier Greenway and Attorney-General Martin will retire from the provincial Government and that Col. D. H. McMillan, a member for Centre Winnipeg and now Provincial Treasurer, will become Premier. Greenway has been driven from his high place by the scandals which have been connected with his private life. The climax has been

reached by the illing of affidavits with the At-

torney-General by Abraham Johnson, lessee of

a portion of the Nicollett Hotel.

The affidavits say that during the winter Premier Greenway was in the habit of frequenting the Nicollet Hotel for the purpose of meeting disreputable women. Greenway was abetted in his clandestine meetings by O'Connor, the owner, who, it is said, made the arrangements ahead of time. The dining room and sleeping departments were leased by Abe Johnson and his wife. About two weeks

Abe Johnson and his wife. About two weeks ago Mrs. Johnson found the door of the upstairs parlor locked, and as no one answered her knocks for admittance she notified her husband of the circumstances, and he endeavored to have the door op-ned without avail, and finally kicked in the door.

On entering the parlor he found the clothes of a woman and of a man lying on the floor, the owners of the garments being he an adjoining room. Johnson grabbed the woman's clothes and took them down stairs. It was subsequently learned that the clothes belonged to kremier Greenway and a woman from another hote. Johnson kept possession of the woman's clothes for some time, and it was on account of this action and a report subsequently circulated that the story became public. Johnson also makes other affidavits giving the dates of Greenway's previous visits to the Nicollet, and is supported by wilneases.

The last affidavits connect the names of two girls, daughters of a well-known lawyer and military officer, with Greenway's escapades. It came to the knowledge of their father that they had met Greenway at the Nicollet, and he at once took steps to bring a private action against the Fremier. The older daughter has gone to Chicago. It is not known who gave her the noncer togo with excepting that it reached her through a hackman. She is now living in a protty and well educated.

All sorts of rumors are in circulation regarding the probable composition of the new Cabinet. It is protty generally conceded that McMillian will be the head of the Government, and
that Clifford Litton of Brandos and Isaac

COL. GOURAUD'S FAREWELL.

A Dinner at the Hosman House to Some of His American Friends.

A farewell dinner was given by Col. Gouraud on Thursday evening at the Hoffman House prior to his return to his English home. It was in acknowledgment of his having just been mustered into the G. A. K. as a omrade of Post Latayette. The rooms were draped in American, French, and English flags, and adorned with full-sized portraits of Gen. Sherman, Mr. Glaustone, and Gen. Latayette. The novel feature of the entertainment cas a phonograph, which carried on a highly interest ing monologue, and frequently broke into song im-

Ladles, I now have on public exhibition at my office, 30 East 14th st., near University place, a young woman with one side of her face cleared of black freekles. The other side is left untouched to show the wonderful-effect of my I at a Bleach. I want you all to call, and be convinced that what I tell you is true. You will not be asked to buy. That is not my way of doing business, but come and satisfy yourself. If you come I promise you that you will go away with the knowledge that any discoloration of the skin can be removed, and will cheerfully recommend me to any of your friends suffering from moth patches, sallowness, freekles, &c. That my Face Bleach cures pimples, comedones, or blackhesds, and eczema, and in fact, all forms of skin diseases. Is clearly proven each day, Miss Joyce, who suffered for five years with eczema, and had never in all that time supeared on the streat without a yell, is now permanently cured, and is in charge of my Newark office. This young girl was on exhibition at my office last July with one side cleared at a time, and seen this way by over ten thousand callers, the same as the young girl who I now have on exhibition, from one side of whose face the black freekles have been removed. My Face Bleach cannot fall in any case. It is entirely different from anything manufactured, and is distinctly original with myself, as is also the process of clearing the skin by this method. Do not confound Face Bleach with any other article.
